

AUTUMN SCHOOL 2017
Palma de Mallorca

Gut microbiota: From conception through adulthood

DAY 1 - Monday 2nd October

	Title	Speaker
14:15-14:30	Welcome and Introduction	NIU Board
14:30-15:30	Delegate presentations (5 min each)	12 delegates
15:30-16:00	Coffee break	
16:00-16:40	Adipose tissue dysfunction in obesity	Gijs Goossens (The Netherlands)
16:40-17:20	What is gut microbiota and its development from fetal life up to the first 1000 days	Nathalie Farpour-Lambert (Switzerland)
17:20-18:00	Delegate presentations (5 min each)	8 delegates

DAY 2 – Tuesday 3rd October

	Title	Speaker
9:00-10:00	Delegate presentations (5 min each)	12 delegates
10:00-10:30	Coffee break	
10:30-11:30	The role of gut microbiota in the pathogenesis of insulin resistance, type 2 diabetes and obesity	Ellen Blaak (The Netherlands)
11:30-12:10	The effect of different nutrients on gut microbiota	Judith Aron-Wisnewsky (France)
12.10-12.50	Metabolic effect of bariatric surgery: Is there a role for gut microbiota?	Judith Aron-Wisnewsky (France)
12:50-14:00	Lunch	

14:00-15:30	Practical training (Group 1) <ul style="list-style-type: none"> Writing and publishing an article: practical aspects Round-table discussion (Group 2) <ul style="list-style-type: none"> Career possibilities in Europe: what aspects should be considered? 	All speakers and NIU Board Chair: Berit Heitmann (Denmark) Led by senior investigators
15:30-16:00	Coffee break	
16:00-17:30	Practical training (Group 2) Round-table discussion (Group 1)	All speakers and NIU Board Chair: Berit Heitmann (Denmark) Led by senior investigators

DAY 3 – Wednesday 4th October

	Title	Speaker options
09:30-10:10	The role of gut microbiota and the gut-brain axis	Jason Halford (United Kingdom)
10:10-10:50	How the environment shapes gut microbiota	Tommy Visscher (The Netherlands)
10:50-11:20	Coffee break	
11:20-12:00	The metabolic disarrangements in obesity vs the “metabolically health obese”	Norbert Stefan (Germany)
12:00-12:15	Close	NIU Board
12:15-13:30	Lunch
